Method of Constructing and Keeping in Repair County Roads. Approved December 20, 1873.

Be it enacted by the Legislature of West

1. That the voters of any county in this State may adopt the alternative method of constructing and keeping in repair the county road as herein provided.

2. The County Court upon petition having been presented to it signed by at least one hundred writers of the county shall at one hundred voters of the county shall at the next ensuing term thereof, order that the said alternative method of constructing and keeping in repair the county roads, shall be submitted to the voters of the county for adoption or rejection at the next ensuing election for Delegates to

the Legislature, and a majority of the votes cast at said election shall determine a road precinct, and when a county shall have adopted the provisions of this set, it shall be the duty of the County Court at its first term after the adoption of the provisions of said act, and blennially thereatter, to appoint a surveyor of roads for each road precinct; said surveyor of roads shall hold his office for the term of two

years, beginning on the first day of January next succeeding his appointment. Vacancies in the office of surveyor of roads shall be filled by appointment by the County Court for the unexpired term. 4 It shall be the duty of the clerk of the county count to give written notice to the appointee of said appointment as soon thereafter as practicable, and each person so appointed shall within ten days after having been notified of such appointment, qualify by taking the oath prescribed by the fifth section of the fourth article of the Constitution of this State, and shall before entering upon the discharge of the duties of his office give bond with security to be

approved by a justice of the peace of his precinct, in such sum as may be required by the county court, and be conditioned for the faithful performance of his duties. 5. It shall be the duty of each surveyor 5. It shall be the duty of each surveyor of roads within twenty days from the first of January hext, succeeding his appointment (provided that he was not appointed to fill a vacancy) to lay out and divide all the county roads in his precinct into sections not exceeding one half mile in length, which sections he shall number and describe in a book kept by him for that purpose, and he shall specify therein the nature and extent of the work which he may deem necessary for improving and keeping in repair each section of said

keeping in repair each section of said county road for the term of two years. 6. It shall be the duty of each surveyor of roads to expose all the county roads in his precinct, one section at a time, at pub-lic sale, to the lowest and best bidder, commencing on the second Tuesday in April next succeeding his appointment, and continuing as aforesaid until all the sections shall have been sold; of which sales at least fifteen days notice shall be given by posting not less than ten hand bills in as many public places in his pre-

7. Any person or persons purchasing a contract or contracts at said sales shall give bond with freehold security, to be approved by the surveyor of roads in a sum to be fixed by said surveyor, for the

sum to be fixed by said surveyor, for the performance of the contract or contracts so purchased.

S. Each surveyor of roads shall divide all the county roads which may be laid out, altered or established hereafter in his precinct, into sections not exceeding one half mile in length, number and describe them, specify the nature and extent of the work to be done, and within twenty days after he has received an order for opening said roads and after he shall have given fifteen days notice by having posted ten handbills at as many public places in his precinct, said surveyor of roads shall proceed to sell said county roads at the said surveyor of roads shall proceed to sell said county roads at the said surveyor of roads shall proceed to sell said county roads at the said surveyor of roads shall proceed to sell said county roads at the said surveyor of roads shall proceed to sell said county roads at the said surveyor of roads shall proceed to sell said county roads at the said surveyor of roads.

to the surveyor of roads thereof that any contractor or contractors therein have neglected or remaid to keep his or their section or sections in repair in accordance with the specifications, it shall be the duty of the said surveyor to examine thereinto within five days after such complaint shall have been made, and if upon such examination he deem the complaint well founded he shall give notice thereof in writing to the party so complained of, and he shall accompany, said notice with a request that the party so complained of shall within a reasonable time thereafter put his cathelia.

11. If a surveyor of roads shall be

purchaser or contractor and shall neglect or refuse to keep in repair according to his contract any portion of his section or sections, it shall be the duty of a justice of the peace of his precinct upon com-plaint of a citizen of said precinct to proceed in the same manner as the surveyor of roads is required to do in section ten

12. It shall be the duty of each surreyor of roads to inspect all the county roads in his precinct at least once in every two months, and if he find that any conractor or contractors have neglected or

13. It shall be the duty of each survey-or of roads as soon as practicable after the sale of said county road newly estabsoon as ascertained, to the County Court the amount of money necessary to keep in repair the county roads in his precipit for the term of one year, whereupon the County Court at its first levy term thereafter had been and any other expenses pertaining to the same, by levying a tax of one dollar and fifty cents on every male inhabitant of said precinct who has attained the age of twenty-one years; and the balance necessary to open and keep in repair the county roads in said precinct, after having defended as a suggested by the Bellaire as one of the terminal points. It is our opinion that a road from Bellaire would prove in the tax of the county, and he shall collect the same in like manner as he collects other district taxes.

14. It shall be lawful for any contractor.

trict taxes.

14. It shall be lawful for any contractor

or contractors who may move out of the precinct to yield up to the surveyor of roads the unexpired portion of his or their contract or contracts by giving written notice to said surveyor at least twenty days prior to the expiration of the term of als or their contract or contracts. The unexpired term of such contract or con-tracts shall be sold at private sale by the surveyor of roads.

15. In case of death or removal out of

the precinct the surveyor of roads shall cause to be paid to the representatives of such person deceased or to such person so removing in the same manner as other claims are required to be paid to contrac-tors, such portion of the money specified in his or their contract or contracts as the surveyor of roads shall believe him justly entitled to.

the right to reject any bids which he may deem too high and sell such section or sections or new road at private sale. 17. Each surveyor of roads shall keep a regular account of the time necessarily

employed and the expenses necessarily incurred by him with the date thereof, and render a sworn account thereof to the county court, and said court shall audit and if found correct shall order the pryment of such expenses or such part thereof as it deems proper, and said court shall allow a reasonable per diem for such time to be paid out of the fund for road purposes in the precinct of such surveyor of roads. Delinquent lists of taxes uncol-

lected under the provisions of this act shall be returned to the county court and shall be disposed of relatively to this act as district levies for school purposes are

Clairsville to Wheeling, Bellaire or some other point.

From the St. Clairsville Gazette of Yesterday,

The question which is now agitating the public mind of St. Clairsville and vicinity, and the one upon which more than any thing else depends the future prosperity of this place is, Shall we build railroad? Many of our citizens seem to be waking up to the importance of this thing, and it is the opinion of the leading men of this town with whom we have conversed upon this subject, that a railrefused to fulfill his or their contract, he road can, and will be built either to or shall give notice thereof and enforce the through this place at no distant day. Same in the manner provided in section. There can be no doubt but that it is to the interest of the people of the whole county to have a railroad passing through the county seat, and the benefit derived lished or changed and annually thereather to the people of St. Clairsville ter to ascertain and report in writing as and vicinity would much more than comsoon as ascertained, to the County Court pensate for the amount which would be

Neff's Siding. From the latter point six miles of road of easy grade would reach 8t. Clairsville. From this place to Urichsville the success of the project would depend upon what the people along the proposed route would be willing to do. We understand that at Flushing the provide understand that at Flushing the people are wide awake upon this subject and ready to do their part. We care not whether this road be a

We care not whether this road be a narrow gauge, broad gauge or some other gauge, so that we got the road. But by all means let us have a railroad of some kind and to some place that will put us in communication with the rest of the world. Our opinion, however, is that a road of the regular width of gauge is much more desirable, and in the end would pay decirable, and in the end would pay decirable the place notwithstanding the dige. dealy the best, notwithstanding the differ-ence in cost of construction, as in that case the B. & O. road will agree to furnish the rolling stock and operate the road The route as proposed above passes through a region of country remote from other railroads and when once constructed would doubtless more than pay expense of operating. It we can not have a through road as proposed, let us have a branch road from Neff's Siding to this place, which can be built with a comparplace, which can be built with a compar-atively small outlay—St. Clairsville and vicinity is abundantly able to grade and iron such a road. We understand that President Garrett, of the B. & O. road has signified his willingness to put on the roll-ing stock and operate the road if it is con-nected with the main line of his road. This we think should convince our citi-zens that it is to their interest to secure the road from Neff's Siding.

We are aware that with some peopl this thicg of building railroads is not very popular, and doubtless some will be tound opposing this project as they do everything else which is advanced for the public good. But as the Bocsel rail-road law has been declared unconstitutional and subsequently repealed, thus doing away with the possibility of taxing the people to build railroads, and this road, if built at all, must be built by private subscription, we do not see that any one need distress themselves, or make themselves uncomfortable on ac-

ount of our advocacy of this enterprise. We hope that this matter may be taken into serious consideration by the clizens of this and other places along the proposed route, and that at no distant time a meeting of those interested in it may be held, an interchange of views had and, some action taken toward securing this long wished for object.

Health's Shield and Pretection.

Health is universally admitted to bethe most desirable of earthy blessings, vet it is jeoparded as recklessly as if it were of no value at all thousands who are compelled by their occupations and pursuits to breath unwholesoms air to expose themselves to violens attendations of heat and cold, and to brave other evils inlimited to health and life atteity neglect to fortify themselves against the dangers which surround them by a proper course of tonic treatment. For many years it has been a public lact, undenied even by the martinets of the medical profession, that Hostetter's Stomach Bitters is the best antidote to malaria and the dinest acclimating modicine in cristence. In sever and agne districts, in tropical and other regions visited by spidemics, and indeed in all locatities where the conditions are unfavorable to health, this famous regustable invigorant and alterative has been found a potent safeguard even to feeble constitutions and fragile iranse; while as a cure for indigestion, billion sness and all kindred complaints it is confessedly without a rival.
